## Tax Roll of Past Due Balances

Municipally owned public utilities are authorized to collect past due charges by placing the charges on the tax roll, as a lien on the property served.

The procedure begins with mailing notices on October 15 to the owner and/or occupant of each parcel of land in which payment is in arrears as of October 1. If the balance remains unpaid as of November 15, the amount will become a lien on the property and be collected as a special assessment on this year's tax bill.
